

Let's talk business using **MAKE** and **DO** collocations

Do you find it easy to do your annual tax return ? Is your tax system fair? Would you change the tax system in your country in any way?	Does your company do business in other countries? Would you be happy to relocate to another country for work?	Are you considering doing a post-graduate course ? If yes, which course? Why do you think it would be useful?
Do you usually make a list of things you need to do during the day or do you just rely on your memory?	What changes have recently been made in your company? How have you been affected by them?	What kind of market research does your company do ? Do you get involved in it? How?
When was the last time you had to make a snap decision ?	What kind of sacrifices are you prepared to make in order to advance your career?	How often do make phone calls at work? What kind of things in your job are best discussed in person rather than over the phone?
Has your company been affected by Covid-19? Is it going to make a profit this year?	If you couldn't use your car for a month, would you be able to make do with public transport?	Do you have to make an appointment to see your boss? How formal are the relations in your company? Do you think the formality of relations affects the way people work?
