

Let's talk using MAKE and DO collocations

Do you believe computer games do more harm than good ?	Is the internet a good place to make friends ?	Is a lot of photocopying done at your school? Do you think we'll ever do away with paper?
Do you think you are making good progress in English? Which areas do you think still need improving?	Have you made any plans for your next holiday?	Have you ever agreed to do someone a favour and later regretted it?
Do you do much sport ?	Do you think more research should be done into preventing or treating Covid-19?	Have you ever made a formal complaint about a service/a product?
Are you keen on sunbathing? Do you ever worry about the damage the sun does to your skin?	If you could make some changes to your flat/house/office, what changes would you make?	What would you do if your next-door neighbour was continually making a loud noise late at night?
