## Introduction

This e-book is a collection of practical exercises connected with the area of work. It is divided into twenty-one units based on workplace-related themes and can be used by both students and teachers of English. The former can use it as a practical self-study workbook, the latter, as a versatile resource-pack filled with hassle-free materials. It is aimed at B2-C1 students, although it can also be adapted for use with B1 learners.

The e-book is filled with real-life language and fun, varied, user-friendly activities. Apart from vocabulary practice, there are plenty of communicative activities, writing tasks as well as tips on how to make learning fun and effective.

If you are an autonomous learner, you will find this workbook a useful companion for improving your range of vocabulary, learning useful fixed phrases and phrasal verbs for office communication, preparing for a job interview, understanding the nuances of English, learning about ways to describe yourself as an employee, describing your workplace duties and much more.

A busy teacher will find here plenty of useful resources to use both in their general and business English class. There is a whole variety of activities to choose from – starting with vocabulary races, to gap-fill exercises, to communicative practice, to writing tasks, to dialogue filling spanning across various aspects of work.
